Bridging the Future

Мосты в будущее: Российско-китайский воркшоп молодых учёных
“桥”见未来：中国-俄罗斯青年学者研讨会

Bridging the Future: China-Russia Young Scholars Workshop

Session 1: Advanced Analysis of Steel Concrete Composite Bridges

May 29, 2026 **10:00-12:00 St. Petersburg, Russia**
15:00-17:00 Beijing, China

Online (MS Teams) + Universities’ Conference Rooms

Workshop Program

10:00 / 15:00	**Welcome Message of the Organizers** *Assoc. Prof. Xia Chaoyi, Dr. Nikolai Kozak*
10:10 / 15:10	**Scientific Schools and Research Activities in the Department of Transport Systems and Road and Bridge Construction of SPbGASU** *Assoc. Prof. Anton Syrkov - SPbGASU*
10:20 / 15:20	**Scientific Schools and Research Activities in the Bridge Department of BJTU** *Assoc. Prof. Xia Chaoyi - BJTU*
10:30 / 15:30	**Research on Temperature Field Distribution of Steel-Concrete Composite Maglev Tube Girder** *M.Sc. student Zhang Chao - BJTU*
10:45 / 15:45	**Advanced Analysis of Composite Bridge Superstructures Considering the Fatigue-Induced Degradation of Shear Connectors** *Dr. Nikolai Kozak - SPbGASU*
11:00 / 16:00	**Shape-Finding for Multiple-Tower Spatial Cable Suspension Bridge** *Prof. Zhu L - BJTU*
11:15 / 16:15	**Reliability and Risk Assessment of Composite Bridges Using Traffic Data: Conceptual Framework and Methods** *M.Sc. student Oleg Zorochkin, Spec. student Igor Rudakov - SPbGASU*
11:30 / 16:30	**Investigation on the Mechanical Performance Degradation Mechanism and Fatigue Life Prediction of Stud Shear Connectors in Weathering Steel Composite Girder Bridges under Corrosive Environment** *Assoc. Prof. Su Han – BJTU*
11:45 / 16:45	**Discussion**

Registration link: in Russian in English (available until 27 May 2026)
